October 4-6, 2017 – San Antonio, TX

13th Annual TCOM Conference

October 4-6, 2017

The Hyatt Regency Hotel | San Antonio, TX

BACKGROUND

TCOM: Transformational Collaborative Outcomes Management is an approach grounded in the philosophy of a shared vision to help people achieve wellness goals as they navigate healthcare, child welfare, juvenile justice, behavioral health, education, and other complex systems around the world. The annual TCOM Conference is jointly hosted by The Praed Foundation and Chapin Hall at the University of Chicago.

This year's conference theme is Leadership. We are in a period of rapid change, and successfully managing change requires leadership. However, leadership must take many forms at many levels of a system and often has little to do with formal power and authority. We will look at leadership in all its manifestations within the collaborative processes and complex systems.

PRESENTATIONS WILL REPRESENT—

- 4 Systems of Care: Behavioral Health, Justice, Child Welfare, Education
- 6 TCOM Implementations: ANSA, CANS, CAT/CSPI, FAST, RISE, Trauma

ABSTRACTS WILL COVER—

- Leadership at all levels
- Training and Coaching
- Systems Management
- Outcomes and Evaluation
- Decision Support
- Evidence Based Practice
- Supervision
- TCOM Implementations

CEUs offered will cover the following disciplines: Psychologist, LPC, LPC-I, LPA, LMSW, LMFT, LCSW

About the Praed Foundation—

Founded in 1998, the Praed Foundation seeks to support transformational activities in human services, with a special emphasis on improving the lives of children and families. The primary work of the Foundation is in support of a mass collaboration of individuals who seek to use evidence-based assessments as an approach to working together to maintain the focus of human service enterprises on the people they serve. As such, the Praed Foundation maintains the copyrights on the Child and Adolescent Needs and Strengths, the Family Advocacy and Support Tool, the Crisis Assessment Tool, and the Adult Needs and Strengths Assessment to ensure that they remain free for anyone to use who shares this commitment.

About Chapin Hall at the University of Chicago—

Chapin Hall at the University of Chicago, since its inception in 1985 as a research and policy center, has focused on a mission of improving the well-being of children and youth, families, and their communities. We do this through policy research—by developing and testing new ideas, generating and analyzing information, and examining policies, programs, and practices across a wide range of service systems and organizations.

The Praed Foundation strives to cultivate an inclusive world view in which all people are equal and all have full rights of self-determination. We work collaboratively to eliminate any forms of discrimination or biased decision-making based on race/ethnicity, sexual orientation, gender identity, belief systems, age, language, income, country of origin or immigration status.
