Canada, Ontario
Ontario, Canada

- population of Ontario: 13.6 million
- 100,000 people diagnosed with ASD in Ontario
- 16,000 children with ASD
- 10,000 treatment spaces in the province
- 14 Lead Agencies in the province
- The landscape is shifting
Autism Programs - CANS

- 2012 – Introduction of the ABA Programs
  Created an opportunity to better understand our children/youth and their families in the system
- Model of collaboration, personalized care and outcomes based
Key statements about personalized services:

- Services must identify and use the strengths of the child and family, as appropriate.
- Services must identify and address the needs of the child and family, when appropriate.
- Services must identify and use the environmental supports that exist in the child’s life.
- Services must identify and address the barriers that are present in the child’s life.
- Providing fully personalized services results in the optimal use of the child and families’ strengths to support them in meeting the child’s needs.
- Optimally personalized services result in the child’s full social inclusion, which is understood to mean participation and self-determination in all areas of life within his or her community to the fullest extent possible (e.g., MCSS, 2006).
Collaboration

- Central role of child, youth and their families
- Interprofessional collaboration
- Consensus building
Lessons Learned
Lessons Learned

• Implementation takes time
  – Investment in a new method of working (collaboration)
  – Model of practice
• Find your champions – principles of change management
  – Early adopters, followers, resistors
• Build on the work
• Create Meaning: Use the data – part of the conversation
• Create the shared story
  – Build on what you know
  – The CANS measures the story
• Use the information at all levels
• The value of outcomes: impact, innovation, influence on care
Influence, Innovation and Impact

The power of Outcomes to influence practice, to drive innovation and to impact facilitation of care.

The best possible beginnings for lifelong health.
Current State: BORN Information System

- BORN Registry
  - 14 ABA Treatment Centres (Autism)
  - Primary Care EMRs for OPR and 0-5 child visits
  - PNS and NSO Follow-Up Clinics
  - NSO Screening Results
  - Immunizations from App
  - 48 Level 2 NICUs
  - 3 of 8 Level 3 NICUs
  - 86 MPGs + 2 BCs for L&B & PP

- BORN Reporting Portal
  - 97 hospitals with L&B & PP
  - 5 PNS labs + NIPT soon

- BORN Reporting Portal
  - 48 Level 2 NICUs
  - 3 of 8 Level 3 NICUs
  - 86 MPGs + 2 BCs for L&B & PP

- BORN Reporting Portal
  - Immunizations from App
  - PNS and NSO Follow-Up Clinics
  - NSO Screening Results
  - Immunizations from App

VOLUNTARY SYSTEM

- Admin Reports
- Cubes
- Dashboards
- Clinical Reports
- DQ Reports
Current State: Continuum
